The Bulletin says: "Hon Burt Dunlap is mentioned for governor. It is said that Burt got mighty close to McKinley and Mark Hanna during his visit east last summer."

A man who was being examined for a place on the New York police force gave the names of five New England states as follows: "England, Ireland, Scotland, Wales and Cork."

The Chicago Dispatch has the following suggestive and flaring head line, "no prosperity in Iowa; only genuine opening up is that of a Salvation Army soup house in Des Moines."

The Chicago chief of police has a high regard for the freedom of the press. He has issued an official order that all liquor saloons in the city shall be closed at 12 o'clock at night, "except those within half a block of newspaper offices."

In an Indiana village two boys were born during the week preceding the election, one of them to a republican and the other to a democratic family. The republican infant was promptly named Abraham Lincoln Ulysses Grant William McKinley, and the young democrat was named Thomas Jefferson James Monroe William Jennings Bryan, and now it would seem to be in order for the village to extend the corporate limits before the boys get old enough to swing their names around.

"The fact that Arizona and New Mexico went strong for free silver means that neither territory will have a chance for admission to the Union very soon. They will have to wait until they are in favor of a dollar worth 100 cents before their claims can be considered by any congress which has a majority of the supporters of sound money. Congress made a mistake in admitting Idaho, Montana and other small states now in the hands of the silverites. It will not be repeated."—Ohio State Journal.

The above is a sample echo from McKinleydom.

This is a peculiar world, says an exchange. One man is saving money to build a house, and another is trying to sell his for less than it cost to build it. One man is spending all he can make in taking a girl to the theatre and sending her flowers, with the hope of making her his wife, while his neighbor is using what money he has in getting a divorce. One man escapes with diseases flesh is heir to and gets killed on the railroad. Another escaped with only a scratch, and dies with the whooping cough. One man stands off his creditors and goes traveling or to the springs, while another stays at home and pays his debts.

EXPORTS OF ALL LANDS.
CUBA'S largest export is beans.
VICTORIA'S principal export is gold.
THE staple export of Manitoba is wheat.
PARAGUAY exports mate or Paraguay tea.
ROMANIA supplies wheat, wine and hides.
THE staple crop of the Barbadoes is sugar.
WEST AUSTRALIA'S main export is wool.
HUNGARY raises wheat, corn and cattle.
BORNEO produces tobacco, pepper and coffee.
NATAL exports sugar, maize, wheat and tea.
A LEADING product of San Salvador is indigo.
THE leading product of Nicaragua is hides.
DUTCH GUIANA produces mostly sugar and cocoa.
HAWAII sends out sugar, rice and bananas.
COCHIN CHINA raises sugar cane, rice and tobacco.
LABRADOR exports large quantities of pine lumber.
ROSA BONHEUR was a dressmaker's apprentice when she was a girl of fifteen years.
DON THOMAS MITCHELL, the Spanish sculptor, is executing a monument of Columbus for the government of Guatemala which is to be erected in the principal square of the Guatemalan capital.
THE empress of Austria has decided to erect a monument in commemoration of her unhappy son, the late Prince Rudolph, in the grounds of the Achilleion, her villa in Corfu. The work has been entrusted to a sculptor of Lugano, and it will be begun at once.

BISBEE NEWS.

BISBEE, Nov. 24, 1896.
COPPERKING.

Mr. Hazlewood and Miss Alice Lemon who has been over from Pearce for several days past left this morning for their homes. They went by team and took a piano with them.

The weather today has been extremely windy. A cold raw wind has been blowing and we have also had a number of showers. It is still very inclement, and the entertainment which was to have been given by the school children this evening has been postponed until some time next week. The ladies of the Woodmen circle are praying their very best for weather tomorrow, and that calico ball is a go if anywhere within the range of possibility.

The close observer of the town, having noticed the large number of exultant but sleepy looking Woodmen about town during the day, have come to the conclusion that there must have been something going on last night of which they were not informed. Strange to say, they are entirely right in their surmise, for the members of Warren Camp No. 9, surely had one of the most enjoyable surprises that has fallen to their lot since their lodge was organized.

In answer to notices which were sent out for a special meeting of the Woodmen last evening, a good majority of the members assembled at the rink, imbued with the idea of finishing their work as soon as possible and getting a little sleep ahead before that calico ball came off. The ladies of Queen Grove No. 3 of the auxiliary, however, had a somewhat different idea of things and proceeded to carry out a little scheme which they have had on hand for some time.

They heard of the fact that the Woodmen were to call a special meeting some days ago and immediately got together and determined to surprise their so-called brothers. Accordingly they made all necessary preparation, and last evening when the Woodmen were in the midst of some of their heavy deliberations they almost took the meeting place by storm. The men hardly knew how to take the intrusion at first but when they saw the steaming coffee and numerous dainties with which their visitors were laden, they concluded that mission was one of peace and allowed them to take possession of the anti-room while they rushed through the balance of their business.

This once out of the way the meeting hastily adjourned and all hands united a jolly social luncheon and a general good time. Singing and dancing were kept up until quite a late hour and it was unanimously agreed that the lodge was indebted to the ladies for one of the best times they have ever had.

We, ourselves, had but one kick coming the entire evening and that was at the way Jim Jones and Mr. Louis Brown staid with the coffee. They froze us, and one or two other modest young men, out completely and we think their actions might well be subdued a little on the next occasion of the kind. We are not a kicker but we don't like to be left in the shade altogether.

Chief Wiser yesterday escorted seven tramps out of town. The tramps had fairly landed in town before they were spotted and told to move on. A strict watch is kept for this class of emigrants and are given a very cold reception.

A Mexican was brought over from Huachuca yesterday and landed in the Hotel de Fly until examination is had.

There was a turkey shoot at Pearce yesterday afternoon at which considerable sport was had, and a social dance in the evening, where everybody had a most enjoyable time.

Col. R. S. Hafford left yesterday for Randsburg to join the rush that now seems to be making for that new edorado. He expects to return if matters do not look favorably but before doing will spend several weeks through California on a visit.

W. C. Archer, late president of the Arizona policy company, has gone and great is the grief thereof by mourning creditors. Mr. Archer had been here for about two years and by his quiet gentlemanly manners had made many friends. To say that they are surprised is to but half say their feelings in the matter. Two attachments were filed on his household property yesterday. He is said to be in Mexico.—Citizen.

WANTED TO QUIT.

Two Who Wanted to Shuffle off the Mortal Coil.

Yesterday evening a Mexican senator sought to break away from this mundane sphere and accordingly dosed herself with Corrosive Sublimite taking enough to kill a regiment of soldiers. Below the deadly drug had taken effect the doctor was summoned and giving her a powerful emetic rescued her from the brink of the final step off. She is now all right.

Last week another attempt at suicidal destruction was made by a down hearted soldier dove in the upper end of town out the stomach pump brought her to terra firma, and the courier, who had been summoned, was ousted out of a job. At last accounts the party had become reconciled to earth and will sojourn a while longer.

A Very Thirsty Dog.
A young Wissahickon man, so the tale goes, owned a dog of mongrel breed, which had added to its one great undesirable quality of low birth the more offensive one of the mange. The young man determined to sever his relations with the animal, and with that end in view he secured a large washtub and put staples in the inside of it, with ropes attached to them, to securely hold the dog and keep its head under water. He caught the dog just as it came in after a long tramp in the dusty roads. The doomed animal was preparing to shake its thirst at the hydrant, when its master grabbed it and tied it down in the tub. Then he turned the water on and let it run until the dog's head was totally submerged. He could not bear to see the poor brute suffer, so he went away for a quarter of an hour. He came back expecting to find the dog dead. Strange to say, however, the dog was very much alive. There was no water in the tub; neither was there any leak in it. The dog had simply quenched his thirst.—Philadelphia Record.

ENGLAND has 80,000 barmidols.

In Jerusalem there are 135 places where liquors are sold.

ABOUT 35 per cent. of the population of Brazil are whites, 35 per cent. mulattoes, 25 per cent. negroes, and 5 per cent. Indians.

STROMGOM has the largest death-roll from alcoholism of any city in the world. Ninety in one thousand die from the excessive use of intoxicants.

Attention is called to the mammoth ad of Joe. Hoffer in another column. Mr. Hoffer is one of the pioneer merchants and advertisers of Tombstone. He has just received a large consignment of holiday delicacies and you will do well to call and inspect the same.

Judge Duncan has fitted up the quarters in the rear of the City Hall very comfortably for both the meetings of the city council, of which body he is clerk, and also for court purposes after Jan. 1st, at which time he will don the official robes as justice of the peace.

The chief of police of Nogales Mexico, says an exchange, recently attempted to commit suicide for reasons that have not been made public. A ball was taking place at the time in an adjoining room and the bullet fired with suicidal intent passed clear through the intended victim and wounded a music man. The chief will recover but he has lost his job.

Thanksgiving day was quietly observed in Tombstone. There services at the M. E. Church in the evening by Rev. Roberts were appropriate to the day, and I was listened to by an attentive audience.

The Los Angeles Express says of the rush for Randsburg: "Most of the men are 'old timers,' and many of them have been in every mining excitement from Pike's Peak, Picher, White Pine and Virginia City, down to Bodie and Tombstone."

LOOK OUT FOR HOBOS!

300 Tramps is Said to Be on the Way over the S. P.

The Tucson Citizen says: Tonight it is said that a gang of between 200 and 300 tramps will meet here. Some are coming from California and are en route east, the others are from east and are headed westward. Their last rendezvous was El Paso. According to the information given out by the brethren, a stop is to be made here by both parties and a union of the forces take place. There is fine material for a chain gang in the jail now and should be made use of.

If it be true that so many arrive here tonight it will tax the best efforts of the city authorities to take care of them. They are said to be a well organized and dangerous gang. Citizens will do well to keep a look out for them.

WINDOW SHADE HINTS.

ALWAYS place roller in brackets with shade rolled up.
If the shade is tacked on properly it will hang toward the window.
ALWAYS fasten the round-hat bracket on the right hand side of the window.
To fit a shade to a window with inside shutters, measure inside molding next to shutters.
If the spring is too strong, remove roller from brackets with shade rolled up, unroll a few turns and replace.
To strengthen the spring, draw the shade down a few revolutions, remove roller from brackets, roll up shade and replace.
In replacing a window shade that has been torn from the roller, use nothing but one ounce tacks; longer tacks injure the spring.

The sound of a bell can be heard through the water at a distance of 45,200 feet. Through the air it can be heard at a distance of only 125 feet.
"AS BLIND as a mole" is not a sensible comparison, as the mole is possessed of good eyesight, although its eyes are very small—about the size of a mustard seed.

SUNSET LIMITED

The Sunset Limited train which passes Benson twice a week going east or west is by far the finest and most magnificent transcontinental passenger train in existence. It is incomparable in excellence and unequalled. No expense has been spared to make it perfect in every respect, and all that human skill or science could invent and apply to make it absolutely faultless has been applied. Luxury and beauty have been combined with strength and safety, and, moreover, like it spans the continent, annihilating time and space in its marvelous flight. All who have had the pleasure of a trip on this train unanimously pronounce it the very finest in the land. A ticket on this route no more than on the regular train.

For further particulars and any information, address:
E. S. WESTER,
Agent at Benson,

Who can think of some simple thing to patent? Write JOHN WEDDERBURN & CO., Patent Attorneys, Washington, D. C., for their free press offer and list of new patented inventions wanted.

A Great Blessing

My wife and I have found in Hood's Sarsaparilla. She had rheumatism very severely, with ankles and legs badly swollen, and hardly able to get up and down stairs without help. Many other remedies failed, but Hood's Sarsaparilla entirely cured her. It was only shortly after that I was taken with the same complaint, affecting my limbs and hips, so I just tried the same medicine with the same result. My wife and children take Hood's Sarsaparilla whenever they feel the need of a medicine and it immediately makes them feel better.

Hood's Sarsaparilla

Saves me doctor's bills. I am an engineer, and well known in this locality." Q. W. WYATT, White Deer Hill, Indian Ter.

Hood's Pills

easy to buy, easy to take, easy in effect. 25c.

Scrofula

Is a deep-seated blood disease which all the mineral mixtures in the world cannot cure. S.S.S. (guaranteed purely vegetable) is a real blood remedy for blood diseases and has no equal.

Mrs. V. T. Buck, of Delaney, Ark., had Scrofula for twenty-five years and most of the time was under the care of the doctors who could not relieve her. A specialist said he could cure her, but he filled her with arsenic and potash which almost ruined her constitution. She then took nearly every so-called blood medicine and drank them by the wholesale, but they did not reach her trouble. Some one advised her to try S.S.S., and she very soon found that she had a real blood remedy at last. She says: "After taking one dozen bottles of S.S.S. I am perfectly well, my skin is clear and healthy and I would not be in my former condition for two thousand dollars. Instead of drying up the poison in my system, like the potash and arsenic, S.S.S. drove the disease out through the skin, and I was permanently rid of it."

A Real Blood Remedy.
S.S.S. never fails to cure Scrofula, Eczema, Rheumatism, Contagious Blood Poison, or any disorder of the blood. Do not rely upon a simple tonic to cure a deep-seated blood disease, but take a real blood remedy.

Our books free upon application. Swift Specific Co., Atlanta, Ga.

Scientific American
Largest circulation of any scientific paper in the world. Send for Descriptive Book, containing full particulars of our publications, and a list of our agents.

FAILING MANHOOD

General and Nervous Debility.
